

PRAY FOR INDONESIA

World Reformed Fellowship received permission from Sheryl Haw, the international Director of the Micah Global to post this information on the website of WRF and to encourage all our members around the world to also join in intercessory prayer for the plight of Indonesian people.

Please pray for all the people of Indonesia who have been hit by the

Earthquake and Tsunami

An earthquake and subsequent tsunami struck Indonesia (and the city of Palu) with full force on the 28th September and the region is still reeling. More than 1500 people have died to date and many more are suffering the effects of this disaster. Thousands of buildings collapsed and rescuers are still looking for survivors who may be trapped. There was a beach festival that was happening as the tsunami hit and there was no warning as people were swept away with the debris of homes and businesses. The region is traumatised and the current needs for survival, enormous. Some of our members are responding, including [Integral Alliance](#), [World Vision](#), [Tearfund](#) and [World Relief](#).

God, we ask for provisions to reach the affected areas quickly and with ease. Please move the global Church to invest in helping this region as they recover. Give Search and Rescue people energy to keep going and provide all this needed to help these traumatised communities as they recover. God, our hearts break with our Indonesian brothers and sisters today.
